

# THE REAL-CAMPING GUIDE

## Camp Kitchen Checklist

Storage box/chuck box/patrol box (to keep your camp kitchen in. Also doubles up as an extra table for food preparation)

Cool box/Esky/Chilly bin or a 3 way fridge (if you are camping for an extended time a camping fridge is really worth the money – you can power the fridge in your car as you drive, via battery or gas or by plugging in to the mains at a campground. No more buying ice or dealing with soggy food. No more finding a freezer to re-freeze your freezer block)

Freezer blocks or ice

Camping stove

Camping gas bottle – check it has gas in it
